### Electroil Super Thermal Engineers:

Established in the year 1983 in Nagpur (Maharashtra, India), we “Electroil Super Thermal Engineers” are actively engaged in manufacturing and supplying an extensive range of Engineering Products. Our wide range of product includes Gas Fired Furnaces, Hopper Dryers and Drying Ovens. The provided products are designed by our adroit professionals with the help of optimum quality raw material and modular machines in adherence with set industry parameters. Additionally, our patrons can purchase these products from us in varied specifications as per the information laid down by our patrons.

To offer our broad array of products, we have recruited a team of qualified and talented professionals. To achieve the set organizational goals and objectives, these professionals work in proper coordination and dedication. To improve the

production rate and quality of the provided products, we have installed modern and upgraded machines at our facility.

Under the management of our mentor, “Mr. Arjun Kumar Saxena ”, we are able to keep a reputed position in the market. His ample knowledge and immense knowledge makes us competent to grow in this competitive market. Moreover, our esteemed clients can get the provided products from us at very economical prices and within given span of time.

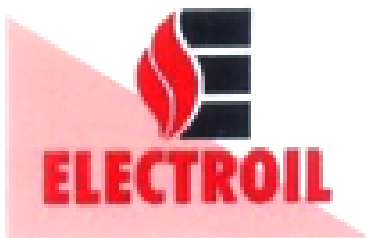

#### **WHY US?**

With our vast industry knowledge we are engrossed in providing products with optimum quality. Some of the distinguishing reasons that make us the first choice in the market are as follows:

- **Ethical Business Standards**
- **Transparent Deals**
- **Experience of the Market**
- **In-house Quality Check**
- **Customized Products**
