Our Skid Mounted Reverse Osmosis System is used to purify water and remove salts and other impurities in order to improve the color, taste or properties of the fluid. It can be used to purify other fluids such as ethanol, glycol etc. Our plant incorporates all the components and instrumentation required for operation, as well as the versatility to adapt to specific customer requirements. We use high quality of reverse osmosis membrane elements that ensures flawless operation. Our Reverse Osmosis Plant have the following Advantages :

\* Actively rejects ions and contaminants

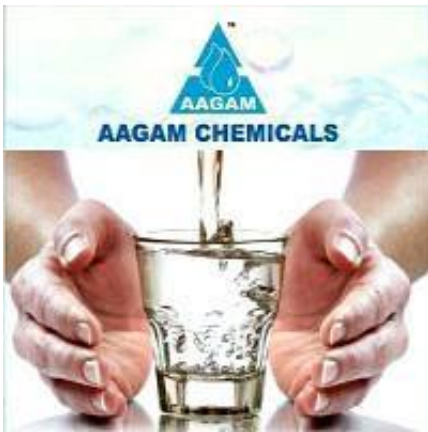

Reduce water that meets the most demanding specifications  
Allow the membrane to continually clean itself  
Higher pressure from the pump to push the fluid through the membrane

Capable of rejecting bacteria, salts, sugars, proteins, particles, dyes and other constituents

Works in various molecular weights
